

Dead Sea Black Mud "Al Nadara" Treatments

Introduce your clientele to one of nature's truly great gifts – DEAD SEA BLACK MUD. Found 400 meters below sea level of the Dead Sea, this mud is 100% natural and has been used in healing and therapeutic treatments for over 2000 years. In addition to delivering a deep cleansing to the skin, the mud's detoxifying properties are also known to relieve joint inflammation, mus-

cle pains, arthritic or rheumatic conditions and psoriasis. The mud is used in conjunction with our full line of cosmeceutical body products. These specialized products will enhance one's natural shape, promote firming and tightening and address your client's cellulite issues.
